

To,

DTP members,

Germany.

My dear DTP team,

I am awfully sorry to hear about Andrea Karsten death (Mama Anna), Bi Talha explained to me everything. I know how big love you both were as brother and sisters. Please accept my deep condolences on this sorrowful loss.

Whenever I'm far away from you, my soul is still together with you. I always remember Andrea's big heart to the people. She came across as a very active and spirited person who took part to care others, as much as most of our community here in Zanzibar. I am sure she will sleep well for the rest of her next life.

I am feeling very bad that I can't be there join you at this difficult time, but remember that I am still a part of her soul. Since I got this terrible information about her death, I together with my colleagues decided to manage a special prayer for her. Mama Anna is popular here in Tanzania, especially Zanzibar because of her big and strong ness heart. She had liberated Zanzibari communities from a miserable life. I used to send to the media her death announcement in the fro days. I'm sure with my big hope many people here still joining you with the last prayer for her. Please read this letter on behalf of us in the funeral day.

Let Lord bless her and you with the strength to sail though this tough situation. Please know that you are there in our payers and thoughts. I hope to meet you future on for the good memory of Andrea (Mama Anna). Until then please take care and accept my sincere sympathies.

With Love

Ramadhan Said Omar
